CITIES

Russia will host the 2018 FIFA World Cup from June 14 - July 15. Three million visitors are expected to attend a total of 64 matches played at 12 venues in 11 cities with the opening ceremony and final taking place in Moscow.

The World Cup will see a significant increase in traffic to many airports. It's advisable for Operators to start planning immediately as massive congestion is expected at airports in the run-up to the competition. This guide will give you operational information such as permit requirements, visa considerations, and more for five gateways to Russia.

Operating to Russia

Landing Permits

Landing permits are required in Russian airports. The following documentation is required:

- Aircraft registration certificate
- Airworthiness certificate
- Air Operator's Certificate required to confirm flight category
- Crew and passenger manifests
- Purpose of flight
- Entry/exit points
- Route and schedule
- Aircraft insurance certificate that confirms worldwide insurance or specially naming Russia and its territories, together with third-party liability details
- Pilot license copies (both PIC & SIC typically requested)
- Aircraft Noise Certificate or AFM extract – required to confirm aircraft maximum takeoff weight (MTOW)

Lead times for landing permits for flights directly associated with the World Cup, e.g. fans attending the games:

- Private category: 1 full working day once the CAA accepts the permit application
- Commercial category: 2 full working days once the CAA accepts the permit application

Please note:

- All documents must be in English
- If the aircraft is foreign registered and more than ten years old, the most recently completed / last two pages of aircraft technical log are often requested as part of the landing permit approval process.

Landing permits for the football World Cup are also subject to landing rights approval, i.e. runway slot (where applicable), aircraft parking stand, aircraft and passenger handling is confirmed, customs and immigration are correctly notified.

Permit validity

Permits are valid from 0001 UTC from the estimated time of arrival (ETA) and remain valid for an additional 48 hours as long as key information such as aircraft type, origin/destination airports and significant updates to the call-sign do not change.

Additionally, for aircraft carrying fewer than 19 passenger seats, no permit revision is needed for changes to entry/exit points into/from the Russian flight information region (FIR) or changes to the aerodrome of departure/landing outside Russia

Cabotage

Foreign Operators are generally prohibited from conducting domestic flights in Russia without prior permission. If the aircraft has been chartered for use by a Russian tour operator or locally based company, the formal agreement between the operator and the Russian entity should be submitted with the permit application.

To further avoid cabotage issues the following applies:

- Clearly explain the necessity for any domestic sectors that will offload passengers or cargo – it is possible that special accommodations can be provided to fans attending games. The more information provided, the greater the chance of approval.
- Domestic technical stops are usually approved as long as the fuel stop is justified and explained, i.e. the endurance of the aircraft is clearly demonstrated as the reason for the stopover to uplift fuel/toilet and water service/catering are the only services required.
- The operator declares that during a technical stop, no passengers or cargo will be offloaded/loaded during the turnaround.
- It is not recommended to conduct crew swaps during technical stops as this often leads to delays or rejection in the approval process.
- No crew rest periods are planned during technical stops.

Slots

Due to airport congestion expected throughout the FIFA World Cup, it's expected slots will be required at all airports. UAS can assist in securing slots for any aircraft operating to Russia.

Parking

Airports may face shortages of parking spots considering the volume of operations that will be taking place during the 2018 FIFA World Cup. Aircraft may have to re-position to another airport for parking.

NOTAMs

As of now, authorities haven't issued any NOTAMs for World Cup 2018 at any of these airports. UAS can re-check NOTAMs on behalf of operators closer to the event.

Fuel

TS-1 is available in all Russian airports and can be provided based on availability at the particular station. UAS can arrange fuel on behalf of any operator during this event.

Visas

Visitors traveling to the games can benefit from a visa-free stay if they apply for a Fan ID. These are also required to enter the Russian stadiums. Visit the official website to arrange your IDs <https://www.fan-id.ru>

Security

Crime risks are always an issue and visitors are exposed to increased risk due to factors such as their travel itinerary, location, perceived affluence, and being unfamiliar with their environment. It is advisable to organize a security package to mitigate these risks. UAS offer a full range of solutions, from vehicles with bilingual drivers to close protection agents.

Gateway Airports

SHEREMETYEVO INTERNATIONAL AIRPORT

Located in the Molzhaninovsky District, 29KM Northwest of Central Moscow.

IATA code: **SVO**

ICAO code: **UUUU**

Latitude/ longitude: **N55-58.4 / E037-24.8**

Elevation: **630 FT / 192 M**

Magnetic variation: **11E**

Operating hours: **24/7**

AOE: **Yes**

PPR: **Required**

Slots: **Required**

Parking: **Subject to availability**

Alternative Airport: **UUMO**

FBO and lounge facilities: **Available**

Crew Visas: **Available on arrival**

VNUKOVO INTERNATIONAL AIRPORT

This dual-runway airport is located 28KM Southwest of the center of Moscow.

IATA code: **VKO**

ICAO code: **UUWW**

Latitude/ longitude: **N55-36.0 / E037-16.4**

Elevation: **686 FT / 209 M**

Magnetic variation: **10E**

Operating hours: **24/7**

AOE: **Yes**

PPR: **Required**

Slots: **Required**

Parking: **Subject to availability**

Alternative Airport: **UUMO**

FBO and lounge facilities: **Available**

Crew visas: **Available on arrival**

DOMODEDOVO INTERNATIONAL AIRPORT

Located 42KM Southeast of the center of Moscow.

IATA code: **DME**

ICAO code: **UUDD**

Latitude/ longitude: **N55-24.5 / E037-54.4**

Elevation: **594 FT / 181 M**

Magnetic variation: **11E**

Operating hours: **24/7**

AOE: **Yes**

PPR: **Required**

Slots: **Required**

Parking: **Subject to availability**

Alternative Airport: **UUMO**

FBO and lounge facilities: **Available**

Crew visas: **Available on arrival**

YEKATERINBURG/KOLTSOVO AIRPORT

Serving Ekaterinburg, this airport is located 16KM Southeast of the city. It is the largest airport in Sverdlovsk Oblast and also serves the towns of Aramil, Sysert, and Polevskoy.

IATA code: **SVX**

ICAO code: **USSS**

Latitude/ longitude: **N43-26.7 / E039-56.8**

Elevation: **768 FT / 234 M**

Magnetic variation: **14E**

Operating hours: **24/7**

AOE: **Yes**

PPR: **Required**

Slots: **Required**

Parking: **Subject to availability**

Alternative Airport: **UUWW**

FBO and lounge facilities: **Available**

Crew Visa: **Available on arrival**

SOCHI ADLER INTERNATIONAL AIRPORT

Located in the City of Sochi on the coast of the Black Sea.

All crew and passengers who have not obtained a Fan ID must hold a valid Russian visa when arriving at Sochi. Some countries have bilateral agreements with the Russian Federation so it is advisable to check your visa requirements.

IATA code: **AER**

ICAO code: **URSS**

Latitude/ longitude: **N43-26.7 / E039-56.8**

Elevation: **89 FT / 27 M**

Magnetic variation: **06E**

Operating hours: **24/7**

AOE: **Yes**

PPR: **Required**

Slots: **Required**

Parking: **Subject to availability**

Alternative Airport: **URRP**

FBO and lounge facilities: **Available**

Crew Visa: **Not available on arrival**

Alternative Airports

PULKOVO INTERNATIONAL AIRPORT

Located 23 km south of Saint Petersburg city center.

IATA code: **LED**
ICAO code: **ULLI**
Latitude/ longitude: **N59-48.0 / E030-15.8**
Elevation: **79ft. / 24m**
Magnetic variation: **10E**
Operating hours: **24 hours**
AOE: **Yes**

PPR: **Required**
Slots: **Required**
Parking: **Subject to availability**
Alternative Airport:
FBO and lounge facilities: **Available**

KHRABROVO AIRPORT

Located 24 km north of Kaliningrad city.

IATA code: **KGD**
ICAO code: **UMKK**
Latitude/ longitude: **N54-53.4 / E020-35.6**
Elevation: **43 ft. / 13m**
Magnetic variation: **05E**
Operating hours: **24 hours**
AOE: **Yes**

PPR: **Not required**
Slots: **Required**
Parking: **Subject to availability**
FBO and lounge facilities: **Not available**

KAZAN INTERNATIONAL AIRPORT

Located approximately 25km southeast of Kazan.

IATA code: **KZN**
ICAO code: **UWKD**
Latitude/ longitude: **N55-36.4 / E049-16.8**
Elevation: **410ft. / 125m**
Magnetic variation: **13E**
Operating hours: **24 hours**
AOE: **Yes**

PPR: **Required**
Slots: **Required**
Parking: **Subject to availability**
FBO and lounge facilities: **Not available**

KURUMOCH INTERNATIONAL AIRPORT

Located 35 km north of Samara city.

IATA code: **KUF**
ICAO code: **UWWW**
Latitude/ longitude: **N53-30.1 / E050-09.2**
Elevation: **476ft. / 145m**
Magnetic variation: **12E**
Operating hours: **24 hours**
AOE: **Yes**

PPR: **Not required**
Slots: **Required**
Parking: **Subject to availability**
FBO and lounge facilities: **Available**

STRIGINO INTERNATIONAL AIRPORT

Located 14km southwest of Nizhny city center.

IATA code: **GOJ**
ICAO code: **UWGG**
Latitude/ longitude: **N56-13.8 / E043-47.1**
Elevation: **256ft. / 78m**
Magnetic variation: **12E**
Operating hours: **24 hours**
AOE: **Yes**

PPR: **Not required**
Slots: **Required**
Parking: **Subject to availability**
FBO and lounge facilities: **Not available**

VOLGOGRAD INTERNATIONAL AIRPORT

Located 15km northwest of Volgograd city.

IATA code: **SKX**
ICAO code: **UWPS**
Latitude/ longitude: **N54-07.5 / E045-12.9**
Elevation: **708ft. / 216m**
Magnetic variation: **10E**
Operating hours: **Mon-Fri 0300-1900Z**
AOE: **No**

PPR: **Not required**
Slots: **Required**
Parking: **Subject to availability**
FBO and lounge facilities: **Not available**

ROSTOV-ON-DON AIRPORT

Located close by the city of Novocherkassk northeast of Rostov-on-Don.

IATA code: **ROV**
ICAO code: **URRP**
Latitude/ longitude: **N47-29.7 / E039-55.5**
Elevation: **213ft. / 65m**
Operating hours: **24 hours**
AOE: **Yes**

PPR: **Not required**
Slots: **required**
Parking: **Subject to availability**
FBO and lounge facilities: **Not available**

Distances By Car

from Stadiums to Airports

Moscow

Luzhniki Stadium

42 minutes (25km) from Vnukovo International Airport.

51 minutes (42.8km) from Domodedovo International Airport.

Otkrytiye Arena

30 minutes (24km) from Sheremetyevo International Airport.

1 hour 30 minutes (59.7km) from Domodedovo International Airport.
