

UAS Risk Mitigation Solutions

You need an expert to uncover hidden risks

International Trip Support

Risk Mitigation

Peace of mind, wherever you travel

Peace of mind, wherever you travel

The world has always been an unpredictable place for the international traveler. Crime, political instability, corruption, and terrorism continue to present potential threats that must be negotiated. UAS' integrated risk mitigation solutions provide customized, forward-thinking analysis and world-class security services through a global provider network, so your personnel and assets are safe and protected when travelling abroad. Services range from aircraft security, executive protection agents and armored vehicles to special operations for close protection of key personnel and assets.

UAS Intelligence Briefs

Location-specific intelligence briefs remain the frontline tool available to help operators and travelers make informed, safe, and cost-effective decisions. They provide an overview of the situation on the ground and suggest steps that can be taken to help minimize risk exposure.

Intelligence briefs are customized to your unique needs and specifications and contain a range of data critical to maintaining optimal security during your trip.

- Security summary and key judgments
- Travel advice and emergency contacts
- Airport specifics and security description
- Transportation data and security description
- Customized security recommendations

We can also arrange a pre-trip consultation to develop a risk mitigation strategy customized to the specific trip.

perspective*

Secure Ground Transport

We can provide you with secure ground transport at your destination. You can choose a vetted English-speaking, professional driver or a vetted professional security-trained, English-speaking driver, if necessary.

What does security trained mean?

- Use of offensive / defensive driver tactics
- Using the vehicle as a weapon
- Recognition and avoidance of tails and choke points
- Escape and evasion tactics
- First aid

We can also arrange for transport with Personal Protection Agents or police escorts (popular in certain regions of Africa).

All transport solutions comply with recommended COVID-19 mitigation measures including but not limited to the use of masks, sanitization of vehicles before and after every use, and social distancing measures.

We can source level III armored cars in most locations, level IV armored vehicles are available in select locations.

Contact us for a free consultation to customize the transportation / security package to your unique needs and budget.

Aircraft Security Guard

- Prevents unauthorized entry to the aircraft
- Deters any tampering, vandalism, sabotage, trafficking, or terrorism
- Keeps record of any incidents relating to accidents or damage to the aircraft

Executive Protection Agents

- Protects from assault, kidnapping, assassination, or loss of confidential information
- Can be trained in unarmed combat, tactical driving, first aid or firearms
- Agents may or may not be armed depending on government regulations

Special Operations

- Combines all security offerings for optimal protection
